

January 24, 2007

Dear Mrs. \_\_\_\_\_,

Mrs. Toovey's (2V's) third graders are very passionate about Pluto! For the last few months, we have been collecting signatures from people who feel Pluto was demoted to a dwarf planet unfairly. As part of the international "Save Pluto" campaign, we would like to send as much support from our community as possible.

These are the last few days of our campaign at Furnace Woods because we want to make sure that the International Astronomical Union in Paris receives our petition before International Save Pluto Day on February 4<sup>th</sup>. (February 4, 2007 would be the 101<sup>st</sup> birthday of Clyde Tombaugh who discovered Pluto in 1930). Could you post this petition in your classroom?

Thank you,  
2Vers Passionate about Pluto

P.S. Please return the signatures to Mrs. 2V's classroom before the end of the school day on Friday, January 26.
